

Clarification of Council consideration – Expectations of UMSU Ltd.

‘The University acknowledges that:

- (a) UMSU has agreed to enter into the Facilities and Services Agreement on the basis that, if the Master Agreement is terminated either at the option of the University or MUSUL and the Facilities and Services Agreement is thereby terminated, the University will continue to provide funding to UMSU to enable it to continue to provide the Core Student Representative Activities; and
- (b) If the Facilities and Services Agreement is terminated as a result of termination of the Master Agreement, the University will, in good faith, use its best endeavours to facilitate the entry by UMSU into a funding agreement with the University or a related body to enable the continued provision of those activities.’

Accordingly, to remove any uncertainty Council is asked to confirm that the intention of its resolution in December was to give effect to the form of words agreed between the Chancellor, the General Counsel and the Senior Vice-Principal as set out above.
