

R7.63 - THE BEHREND MEMORIAL LECTURE IN MATHEMATICS

Recitals-

- A. Daisy Behrend of Melbourne in the State of Victoria gave £500 to the University to provide a memorial to her late husband Felix Behrend, formerly Associate Professor in the department of Mathematics in the University, to endow a lecture to be called the "Behrend Memorial Lecture in Mathematics".
- B. The donor directed that the sum be invested in securities authorised by the laws of the Commonwealth of Australia or any of its States or Territories for the investment of trust funds or in debentures of or preference or ordinary shares or stock units in any company or in any other investment as the Council from time to time thinks fit.
- C. The sum of £500 increased to \$12,424 at 31 December 1994.

It is provided as follows:

- 1. The sum of \$12,424 and any accumulations and additions to the sum forms the endowment of a lectureship to be known as the "Behrend Memorial Lectureship in Mathematics" ("the fund") and the fund must be invested in such of the abovementioned investments as the Council from time to time directs.
- 2.
 - (1) The net income of the endowment is used to provide a lecture or series of lectures on some aspects of Mathematics and to assist in defraying the cost of publicizing such lecture or lectures.
 - (2) The lectureship must, as determined from time to time by the Council, be available either annually or biennially.
- 3. The lecturer is appointed by the Council on the recommendation of the professor who is at the time the head of the department of Mathematics ("the department"). Before making such recommendation the professor must consult with the other professors in the department.
- 4. Any unexpended income may be added to the endowment or retained as income as the Council thinks fit.
