

Geomatics (science)

Geomatics subject descriptions

The geomatics subjects available for science credit are listed below.

The science credit points that will be awarded for the successful completion of these subjects are as follows:

- 451-100: 12.5 science points at the 100-level
- 451-101: 12.5 science points at the 100-level
- 451-200: 12.5 science points at the 200-level
- 451-208: 12.5 science points at the 200-level
- 451-312: 12.5 science points at the 300-level

451-100 Geomatics Science 1A

See full subject details on page 4.

451-101 Geomatics Science 1B

See full subject details on page 5.

451-200 Geomatics Science 2

See full subject details on page 5.

451-208 Computational Methods in Geomatics

See full subject details on page 6.

451-312 GIS & Remote Sensing for Enviro Science

See full subject details on page 7.
