

## **ACADEMIC BOARD – MEETING 8/03 (25 SEP 2003)**

### **4. Working and Discussion Groups**

#### **4.4 Working Group on Academic Honesty**

The Committee reports the Working Group on Academic Honesty awaits the outcome of an analysis of alternative systems for plagiarism detection and associated costs by a working group of the Planning and Budgets Committee before it will know if ASESS+COPICAT, the software application designed by the Department of Computer Science and Software Engineering to detect possible plagiarism in student submissions, will be implemented at the University in semester 1 2004.
