UTR6.123 -  M.K.N. JOHANSEN SCHOLARSHIP FOR THE ADVANCEMENT OF MUNICIPAL ENGINEERING

Recitals-

A. In 1963, the Shire of Mildura (as then known) held a public appeal to perpetuate the memory of Merlin Kay Neil Johansen who for 41 years was Engineer of the Shire, and gave the University the sum of £5000 being the appeal proceeds.

B. The purpose of the gift was to endow a scholarship to be known as the 'MKN Johansen Memorial Scholarship for the Advancement of Municipal Engineering'.

C. The University accepted the donations upon the trusts specified by the donor, and the donations therefore became the capital subject to those trusts ('capital sum').

D. This University trust record is the means by which the University records –

(1) the trusts specified by the donor upon which the University as trustee holds trust property, including the capital sum; and

(2) the administrative arrangements for the implementation of those trusts, as determined by the University from time to time.

It is provided as follows-

Name of the fund

1. The capital sum, all income arising from the capital sum, and any accumulations and additions thereto together form a fund called 'M.K.N. Johansen Scholarship for the Advancement of Municipal Engineering' ('fund').

Investment of the fund

2. The fund is to be paid into one or more investment common funds and remain there until Council directs otherwise.

Trust terms

3. As trustee of the fund, the University is obliged by the trusts specified by the donor ('trust terms')-

(1) to establish a perpetual trust;
(2) to use the income from the fund to provide for a graduate scholarship in Melbourne School of Engineering ('MSE');
(3) to call each scholarship the 'M.K.N. Johansen Scholarship for the Advancement of Municipal Engineering';
(4) to make the scholarship open for award to persons who have completed an undergraduate degree and who wish to proceed to post-graduate study or research in the field of Municipal Engineering;
(5) to award each scholarship on the recommendation of a selection committee which is to have the following members–
(a) (i) the head of the department of Infrastructure Engineering in MSE or nominee;
(ii) a senior academic in the department of Infrastructure Engineering in MSE; and

(b) a representative of Mildura Rural City Council invited each year or at such other interval as will be determined by the members described in paragraph (a);

(6) to require the committee is to take into account the personal qualities of the candidates, including their aptitude for research, and give preference to a candidate whose usual home is in the region governed by the Mildura Rural City Council and who wishes to pursue a career in the field of Municipal Engineering.

**Administrative arrangements**

4. Until its further determination, and in order to implement the trust terms, the University has determined-

(1) that the selection committee established under section 3(5) is to determine-

(a) the value of each scholarship;
(b) the number of scholarships awarded each year; and
(c) the term of each scholarship, although the normal tenure of the scholarship is to be one year;

(2) that the scholarship can be awarded to the same scholar for more than one year; and

(3) that if in any year no applicant is considered suitable, the income is to be retained and the scholarship be open for award again the next year.

5. The dean of MSE is authorised to award each scholarship on behalf of the University, on the recommendation of the selection committee."

[Revoked and remade, certified 6 September 2010; Rec D am; ss 5(a) am 22/9/2011]
