

UTR7.54 - POSTGRADUATE MEDICAL EDUCATION FUND

Recital-

A fund was established for the purpose of encouraging medical education at the postgraduate level.

It is provided as follows-

1. All donations, devises or bequests received by the University for the purpose of encouraging medical education at the postgraduate level which are not subject to trusts requiring the retention of capital, any accumulations and additions to same together with such sums as the Council may from time to time determine form a fund known as the "Postgraduate Medical Education Fund" ("the fund") and the fund must be wholly or partly invested as the Council from time to time directs.
2. The net income of the fund and, if need be, the capital is used to provide medical education at the postgraduate level whether by courses of instruction, lectures by visitors from overseas or from other States or otherwise as the Council from time to time determines.
3. In administering the fund the Council acts only after consulting a committee it establishes from time to time.

[Revoked as a Regulation and certified as a University trust record 26/5/10]
