

UTR7.160 - HENRY FREEMAN BEQUEST

Recitals-

- A. Henry Freeman, late of St. Kilda in the State of Victoria, who died on 2 January 1987, bequeathed his residuary estate to the University "for the purposes of the Department of Psychiatry in conducting research into the causation and prevention of manic depression".
- B. The University received cash and investments totalling \$108,835 in satisfaction of the bequest, which sum increased to \$126,515 at 31 December 1994.

It is provided as follows-

- 1. The cash and investments totalling \$126,515 and any accumulations and additions to them form a fund called the "Henry Freeman Bequest" ("the fund") and the fund must be paid into an investment pool and remain there until the Council directs otherwise.
- 2.
 - (1) The income of the fund is applied to research into the causation and prevention of manic depression in the department of Psychiatry by the faculty of Medicine, Dentistry and Health Sciences on the recommendation of the Medical Research Committee ("the committee").
 - (2) The Council may on the recommendation of the committee direct that the capital of the fund be resorted to for the purpose set out in (1).

[Revoked as a Regulation and certified as a University trust record 26/5/10]
