Phase 1
Minimise time on campus

What’s happening:
- Meetings: To work from home until further notice
- Campus access and amenity: Limited to critical services only
- Teaching and Learning: Fully online
- Library services: Online only
- Student Services: Online only

What this means for you:
- Research activity: Fully online
- Teaching and Learning: Fully online
- Library services: Online only
- Student Services: Online only

Phase 2A
Continue to minimise time on campus

What’s happening:
- Until the easing of Stage 3 restrictions in Victoria
- All workplaces have a COVIDSafe plan
- Work or study from home if you can
- Limited research and learning activities to what cannot be done off-campus or online
- Approved on-campus research continues

What this means for you:
- Research activity: Approved on-campus research continues
- Teaching and Learning: Approved on-campus research continues
- Library services: Increased space available
- Student Services: Continue online with options for limited in-person service

Phase 2B
Increase activity safely

What’s happening:
- In line with changes to Stage 3 Restrictions in Victoria
- All workplaces have a COVIDSafe plan
- Work or study from home if you can
- Controlling movement on campus
- Limited research and learning activities to what cannot be done off-campus or online
- Observe directions and maximum space limits

What this means for you:
- Research activity: Approved on-campus research continues
- Teaching and Learning: Approved on-campus research continues
- Library services: Increased space available
- Student Services: Continue online with options for limited in-person service

Phase 3
Managed expansion

What’s happening:
- In line with DHHS advice and the University’s academic calendar
- All workplaces have a COVIDSafe plan
- Blended work or study from home and campus
- Limited research and learning activities to what cannot be done off-campus or online

What this means for you:
- Research activity: Approved on-campus research continues
- Teaching and Learning: Approved on-campus research continues
- Library services: Increased space available
- Student Services: Continue online with options for limited in-person service

> If you suffer from a chronic illness or have increased risk of serious illness from COVID-19, you should seek medical advice before returning to campus. Please consult www.unimelb.edu.au/coronavirus for more information.
Our number one priority is your health, safety and wellbeing.
Our advice is based upon advice from the Victorian Department of Health and Human Services (DHHS), the Australian Government and health experts. We are doing everything we can to contain transmission rates on campus.
We have introduced enhanced cleaning processes and additional measures to assist you with physical distancing and hygiene requirements.

What we all need to do:

- **Stay home if unwell** (fever, cough, sore throat, shortness of breath, runny nose or loss of sense of smell)
- **Physical distancing** maintain 1.5m between you and others wherever possible and follow instructions given (4m² per person in enclosed spaces)
- **Maintain hand hygiene** look for hand sanitising stations around campus
- **Cough/sneeze into your elbow**
- **Minimise time and movement** limit the time you spend and the number of buildings you visit whilst on campus

### Before you come back to campus the first time

- Go to the [unimelb.edu.au/coronavirus](https://unimelb.edu.au/coronavirus) website and check the “Return to campus” section to:
  - Complete the Health Declaration
  - Complete the COVIDSafe Campus compulsory online module

### Every time you come to campus

- **Plan your trip:** See Public Transport Victoria advice and consider driving, riding or walking to campus and avoiding peak hour travel
- **Wear your mask**

### While you’re on campus

- If you become unwell, leave the campus immediately and seek medical advice
- If you become unwell, even with mild symptoms, get tested for COVID-19 (available at the University Health Service - call the hotline on 8344 6905 to book)
- You may require your temperature to be taken to enter some buildings
- Record your contacts. We strongly recommend downloading the [COVIDSafe app](https://www.dhhs.vic.gov.au/coronavirus) or keeping a diary to assist with contact tracing
- **See, Say, Act.** Keep our campus COVIDSafe - use the [Snap Send Solve app](https://www.learningspaces.unimelb.edu.au/support) to let us know if you have feedback or concerns

Download the app: [www.learningspaces.unimelb.edu.au/support](https://www.learningspaces.unimelb.edu.au/support)
